25X1 13. [] George Murphy, Joint Committee on Atomic Energy staff, called to say that the Atomic Energy Commission had advised the Joint Committee that they were forwarding to Senator Gore's Disarmament Subcommittee of the Senate Foreign Relations Committee, a sanitized transcript of testimony given before that Subcommittee by Dr. Bradbury, of the Los Alamos Laboratory, and Dr. May, of the Livermore Laboratory. The Joint Committee staff was advised by AEC that this transcript had been security cleared by CIA as well as AEC. Mr. Murphy expressed concern over the possible publication of testimony before the Foreign Relations Committee by these witnesses when the JCAE had been unable to publish anything of significance because of security deletions made in the transcript of the testimony of these laboratories before that Committee. (With regard to OSI's action on the Gore transcript, see Journal of 28 March.)

25X1 After checking with [] OSI, I advised Murphy that while OSI had assisted the AEC in certain matters pertaining to the testimony of these laboratories before the Gore Subcommittee, this did not constitute a formal security review by this Agency. Murphy said he had looked at the sanitized material and it appeared that CIA material had been deleted. Murphy has no quarrel with us at this point but is most upset with AEC for not advising the Joint Committee that they were conducting the review of the Gore Subcommittee transcript earlier. ([] is obtaining a copy of the sanitized material in the event we should wish to take the initiative with the Foreign Relations Committee in requesting an opportunity to review this material before publication.)

25X1 []
